To Whom It May Concern

It is with great pleasure that I confirm that Alpha Power Solution had executed a project at Namibia Breweries Ltd plant on Power Factor Correction (PFC) and power quality analysis.

The project was commissioned in May 2016 and it entailed the specification, design, supervision and commissioning of PFC equipments. Alpha power Solution was also involved in the harmonic studies of which the recommendation of the study are yet to be implemented.

Alpha Power Solutions did an amazing job and I wholeheartedly recommend them to all colleagues and associates as the “full package deal” team full of cutting edge talent, dedication and a passion for energy efficiency and power factor correction.

Yours sincerely:
